BOSTON PUBLIC LIBRARY

I am much indebted to
your Excellency for announcing
my election as a member of the
Philosophical Society. I feel
myself particularly honored by
this relation to a society whose
successful efforts for promoting
useful knowledge have already
justly acquired them the highest
reputation in the literary world.

I entreat you to present
my warmest acknowledgments,
and to assure them that I shall
with zeal embrace every oppor-
tunity of seconding their laudable
views & manifesting the exalted
sense I have of the institution.

The Arts and Sciences
essential to the prosperity of the
State and to the ornament and
happiness of human life have
